Thank you, Bert. One point – did you mean Southern Ute rather than Navajo? (understand R9 pulling Navajo data together)

Tom, Susan and Dwane, see two responses below regarding data we have: 1) historic CO data, some of which we suspect might not be in STORET, and 2) recent pre and post spill data for CO and Navajo. Please coordinate as necessary and directly with Karl and Maggie on this data.

Adding Steve Wharton who's the Environmental Unit lead in Durango.

We also have recent (both pre- and post-spill) EPA, WQCD and Southern Ute data.

Bert,

Last week, I had requested historic data from CDPHE. That included data from various stakeholders used in the State's 303(d)/305(b) assessments. I have all of the spreadsheets they sent in their response to that request. I suspect not all of that data is in STORET.

Let me know who to forward that data to.

Karl A. Hermann

Judy Peter/Peter, Would you please help answer the watershed question? Note short time frame.

Martin, Deb, Johanna – FYI. Who, associated with the response, do we need to communicate and coordinate this with?

Karl and Maggie, may need your help with the final item below.

Peter Monahan or Judy Bloom might know the particulars of current plans and activities in that area. I'll ask Cyd and Adam about a GRTS pull for recent year projects.

EOC desk officer walked me through dialogue to date re: next steps. Transitioning from Emergency response to programmatic next steps.

Deliberative Process/Ex. 5
